Walking along the Yellow River, experience a different kind of scenery. During the National Day holiday, the Shandong International Communication Center, in collaboration with Qinghai Province, Sichuan Province, Gansu Province, Ningxia Hui Autonomous Region, and Inner Mongolia Autonomous Region, is launching the "Yellow River Walk" international communication initiative along the Yellow River. The campaign will showcase the achievements in ecological conservation and high-quality development of the Yellow River Basin, while telling the diverse stories and charm of the Yellow River.

In this episode, Zhang Li, a host from Xining Radio and Television Station, takes us into Xining, Qinghai, to explore the allure of the snow leopard and wander through the Hehuang region.
